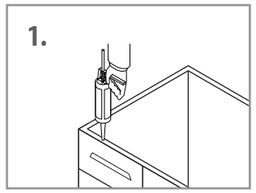
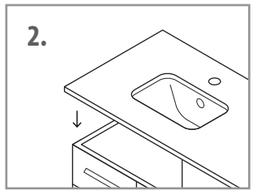
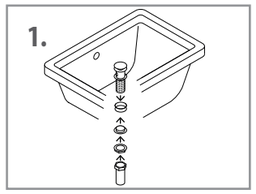
Attaching Counter Top To Cabinet

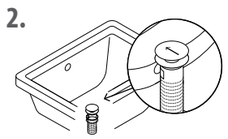


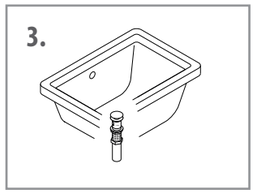


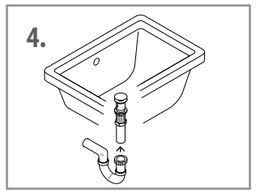
1. Apply continuous stream of quality silicon glue to the top of the cabinet where the countertop needs to be placed.
2. Place the countertop on the glued cabinet.
3. Don't start using the vanity right away. Wait for approximately 24 hours so that the silicon glue can dry.

Installing The Drain On The Sink



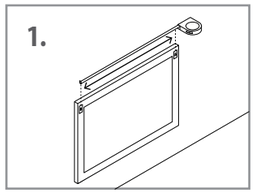


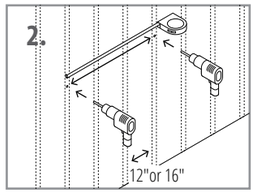


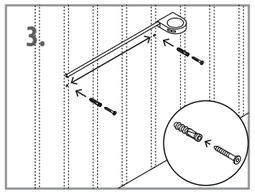


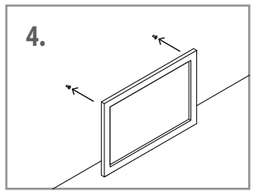
1. After installing the counter top on the cabinet, put the drain assembly inside the hole in the sink and fix it firmly.
2. For the overflow sinks, make sure that the overflow hole on the drain is aligned straight in the direction of the overflow hole on the sink.
3. Tie up the mounting rubbers and metal rings from the bottom of the drain.
4. Connect the trap onto the drain bottom.

Hanging Mirror On The Wall









1. Measure the distance between the screw holes from the back of the mirror.
2. Locate the studs on the wall. They are normally placed 12″ to 16″ apart from each other. Drill two holes on the studs as per your previous measurement.
3. Insert the plastic plugs into the drilled holes and then insert screws into the plastic plugs. Tie up the screws till they remain at least 0.5″ – 0.75″ outside the wall.
4. Hang the mirror on to the screws.
