Care and Cleaning / Entretien et nettoyage

Never use scouring powder pads or sharp instruments on metal pieces or glass panels. An occasional wiping down with a mild soap diluted in water is all that is needed to keep the panels and aluminum parts looking new.

We recommend wiping the glass panels with a squeegee after each use

Ne jamais utiliser de poudre ou de tampon à récurer, ni d'instrument tranchant sur les parties en métal ou en verre. De temps à autre, il suffit de nettoyer la porte avec une solution d'eau et de détergent doux pour conserver l'aspect neuf des panneaux de verre et du cadre en aluminium.

Nous recommandons de passer une raclette de douche sur les panneaux de verre après chaque utilisation.
