

INSTALLATION INSTRUCTIONS

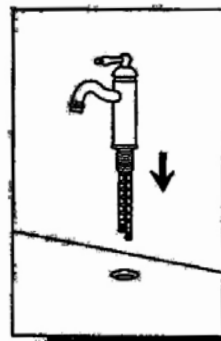

Tools You Will Need:

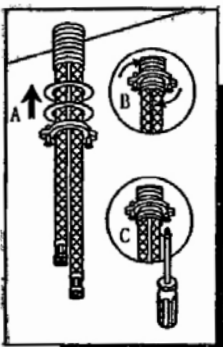

Lavatory Faucet Installation

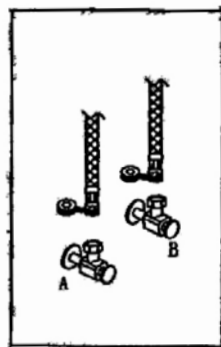

1. Remove the mounting hardware from the faucet.

2. Install faucet body through top of sink.

3. From underneath the sink, replace the washers and lock nut. Use philips screwdriver for final tightening after spout is aligned.

4. Connect to water supply.

5. After installing faucet, remove spray assembly and open the hot and cold water supplies. Check for leaks. Turn on faucet handle for one minute to flush debris from faucet. Close the handles and re-assemble the spray.
