

Description

Frame panel **indoor door**, finished with rich **African Wenge** veneer. This Mahogany group wood is known for its stability and high rot resistance and rich chocolate brown tones. Door frame is made of solid pine wood planks, connected on micro studs. Honeycomb technology filling and MDF lining make the **door slab** lightweight and suppress the noise sufficiently. Three layers of Becker Acroma nitrocellulose varnish with interim grinding and polish make the door semi-gloss.

All **interior doors** are coated with natural wood veneer, which require no further treatment of the slab. We use only the finest materials and construction techniques available on the market, which makes our products quality and appearance absolutely superb. Our products are built to last and are covered with a two year warranty guaranteed.

Name	Mia Italian Wenge
Style	Modern/contemporary
Type	Interior
Finish	Prefinished; natural Italian wenge wood veneer
