Culinary Faucet Spring Options

Unique to California Faucets is the ability to choose an alternate Coiled Spring finish. The optional Coiled Spring finish is pre-determined by the faucet finish, as indicated on the chart below. If the selected faucet finish is not indicated below (Polished Chrome, Satin Chrome, Polished Nickel, Satin Nickel, Satin Copper, Ultra Stainless Steel and White), the Coil defaults to standard Stainless Steel.

When specifying a coil finish other than standard Stainless Steel, replace 150 with 150F.
For example: K50-150F-BST.
