INSTALLATION INSTRUCTIONS

WARNING: Do not use excessive force when threading on the shower arm.

1

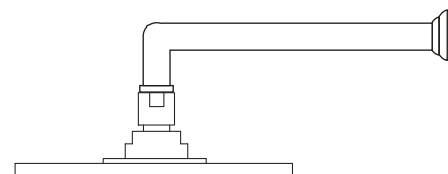

Step 1:
Wrap the end of the threads with
Teflon tape and thread onto the pipe in the wall.

2

Step 2:
Apply silicone around the hole and press the flange to
secure its position.

3

Step 3:
Wrap the threads at the bottom of the
arm and thread on the rain head.

WALL MOUNT

For proper functioning of the rain head please note the following:

3/4" shower valve is required (reduce to 1/2" at the shower arm)
