

1/2" Thermostatic Valve with Integral Volume Control

Model #: J-THVC12

FEATURES:

- Top valve is a Thermostatic mixing valve that maintains a constant water temperature automatically, regardless of incoming hot & cold water pressure & temperature. Set valve to desired temperature & no need to adjust further
- Bottom valve is an integral volume control and on/off
- Anti-scald protection
- Lower cost alternative; no need for separate volume control, and easier installation
- Thermostatic & volume control cartridges are ceramic
- 1/2" NPT female ports
- 12 GPM flow @ 60 PSI
- Can be used for handheld application
- Extension kit available for deep wall installations, see J-THVC12-EXT
- Ideal for tub & shower with twin ell (provided) & diverter tub spout (sold separately)
