IMPORTANT SAFETY

INSTRUCTIONS
When using an electrical furnishing, basic precautions should always be followed, including the following: Read all instructions before using this furnish-

DANGER

To reduce the risk of electric shock:

1. Always unplug this furnishing from the electrical outlet before cleaning.

WARNING

To reduce the risk of burns, fire, electric shock, or injury to persons:

1. Unplug from outlet before putting on or

taking off parts.

2. Close supervision is necessary when this furnishing is used by, or near children, invalids. or disabled persons.

- 3. Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufac-
- 4. Never operate this furnishing if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the furnishing to a service center for examination and repair.

5. Keep the cord away from heated surfaces.

- 6. Never operate the furnishing with the air openings blocked. Keep the air openings free of lint, hair, and the like.
- 7. Never drop or insert any object into any opening.

8. Do not use outdoors.

- 9. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- 10. To disconnect, turn all controls to the off position, then remove plug from outlet.

11. WARNING: Risk of Electric Shock – Connect this furnishing to a properly grounded outlet only. See Grounding Instructions.

CONFORMS TO UL STD. 962

Input: 120V~, 0.69A, 60Hz

SAVE THESE INSTRUCTIONS

Kimball & Young Inc. Model: 30000HW

For Household / Residential Use Only Lamp type: MAX 24W Type 3U CFL x 2

This device complies with Part 18 of the FCC Rules

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B ISM equipment, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

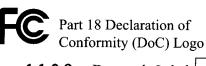

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

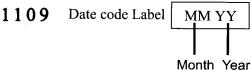

-Consult the dealer or an experienced radio TV technician for help.

"This product may cause interference to radio equipment and should not be installed near maritime safety communications equipment, ships at sea or other critical navigation or communications equipment operating between 0.45-30 MHz."
