---

Freestanding solid-surface Eco-Lapistone™ bathtub  
Streamlined, high-profile one-piece design  
Includes polished chrome waste  
Slot overflow

---

#### What is Eco-Lapistone™?

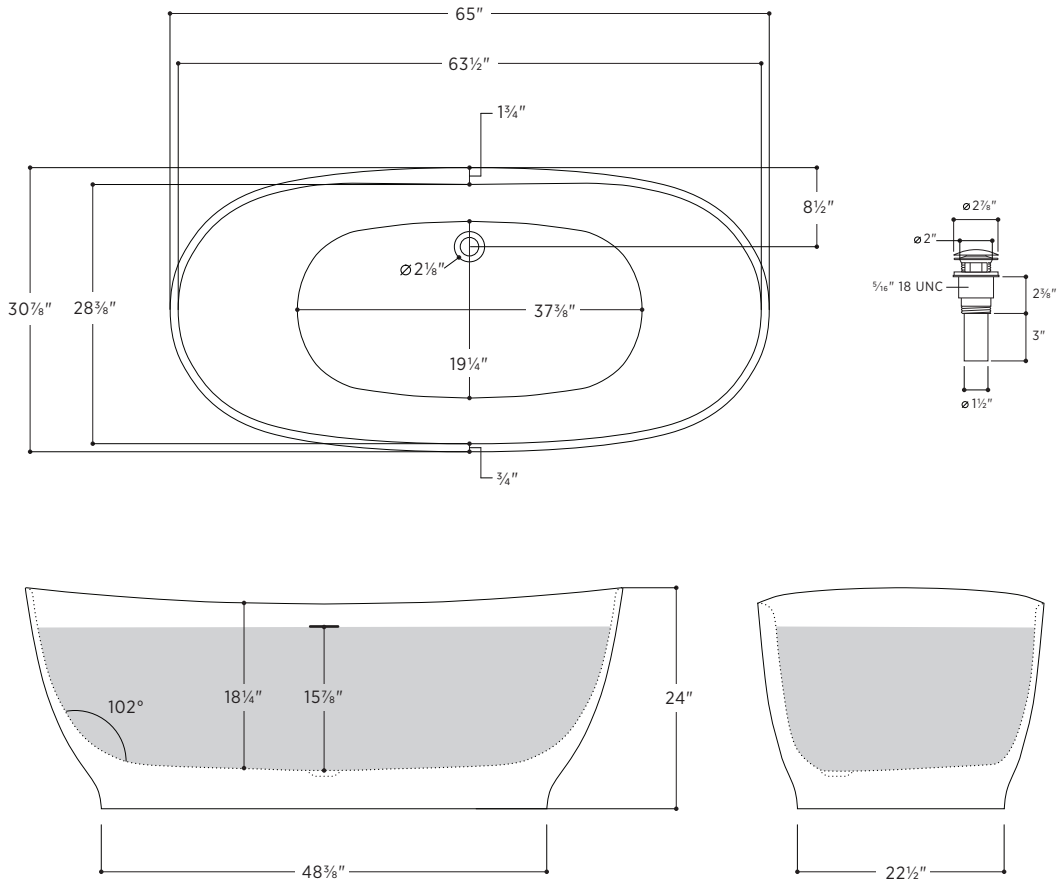

Eco-Lapistone™ is made with plant-based material in place of fossil resins. It is 30% lighter than standard solid surface and 100% recyclable and restorable. With a luxurious velvety texture and consistent color throughout, the non-porous composition makes these tubs exceptionally strong as well as naturally hygienic and stain-resistant. The superior high-heat retention properties of Eco-Lapistone™ reduce water usage, and its production and delivery utilize less energy, further minimizing its carbon footprint.
